

Authentication and Authorisation for Research and Collaboration

SA1: Pilots on community-driven use-cases and on infrastructure AAls integration

Arnout Terpstra

SA1 Activity Leader

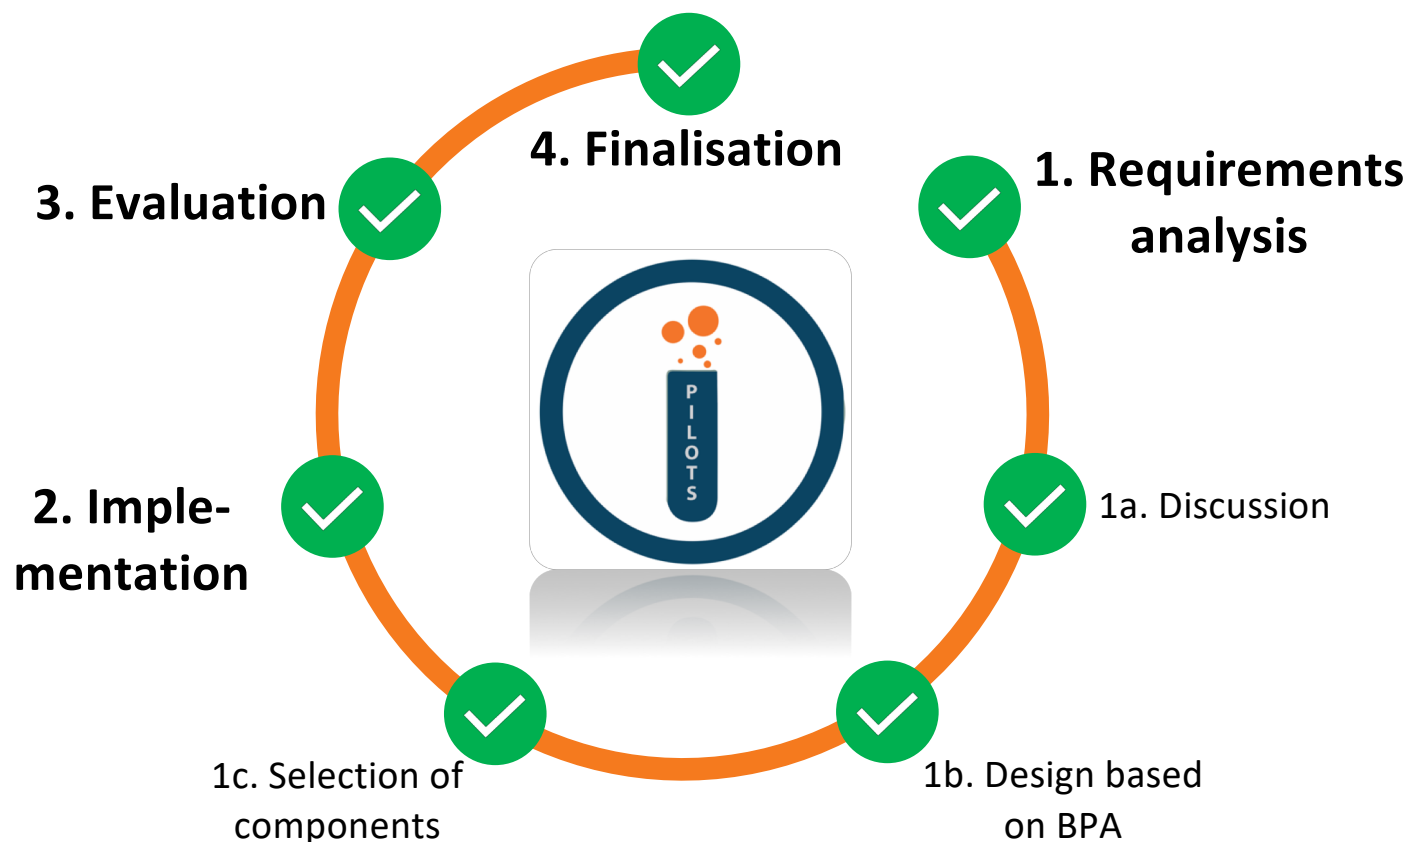

AARC2 All Hands Meeting
19-22 November, 2018
RETI, Milan

What happened since the previous All Hands meeting (April)

- Y1 review @ Luxembourg (June)
 - Pilots very important: where all the AARC results come together in practice
 - How to measure success of the pilot?
 - What are lessons learned (positive + negative) from the pilots?
- Plug-fest @ Reti (September)
 - First SaToSa training + training on how to connect SAML/OIDC SPs
 - Made good progress with pilots

Pilot cycle: from community requirements to (pre-)production AAI

AARC plugfest 2018 pushes pilots forward...
24th April 2018 | Written by Paul van Dijk

Mapping research community requirements and components to the AARC blueprint architecture. The value of face-to-face workshops was proven again when representatives from research communities worked with AARC project experts on authentication and authorisation infrastructures (AAI) in a project 'plugfest'. Insights were gained into their use c [...]

Finalisation

What's next

- Finalise implementations!
- This meeting: discuss finalisation phase of pilots
 - Sustainability: documentation, lessons learned, ...
 - Separate Hands On sessions (see agenda)
- Communities: present AARC pilot results at FIM4R
 - Session this afternoon to discuss about that

Thank you
